[1st page] [2nd page] → [Front] [Back]

Collation simplified

No need to shuffle through your high-volume printouts: electronically sort your multiple-page documents according to your desired page order for fuss-free print collection and collation.

Automatic Document Feeder

The Automatic Document Feeder efficiently loads up to 110 A4-size document pages[1] for effortless copying, while the durable document platen glass handles small documents and books of varying sizes for printouts.

[1] 80 gsm paper.

Speedy operation

Reduced first-copy-out time

DocuCentre S2011's First Copy Output Time of only 7.4 seconds* saves time when in a rush.

* A4 landscape

Fast The warm-up time and high-speed output

The warm-up time is less than 19 seconds*. Smooth copy/output saves time when in a rush.

* Time for the device to activate from sleep mode.

Versatile features
Print multiple pages on one sheet

Different documents can be printed on either side of a piece of paper. Also, by reducing the size of documents, up to eight pages can be printed onto one sheet. This helps conserve paper.

Colour scanning as a standard function

Select a scanning resolution up to 400 dpi. Scans can be saved in the following formats: XDW, PDF, BMP and TIFF.

Print and copy on heavy paper

Print certificates or greeting cards on 60-216 gsm paper. Printing can be easily customised for nearly any job, eliminating the need to outsource.

Continuous printing of up to 999 pages

Designed for productivity and reliability to allow printing up to 999 pages per job.

Lower Costs, Elevated Value

Internationally recognized environmental compliance

The amount of ultrafine particles (UFPs*) emitted during continuous printing has been reduced by optimising operation settings.

* Ultrafine particles (UFPs) are tiny particulates less than 100 nanometres in diameter. They are far smaller than the PM2.5 particle class, the regulations for which are becoming stricter from an environmental perspective.
Eco friendly and energy saving

The TEC value* complying the International Energy Star Program is 1.1kWh. Compared to a conventional model, DocuCentre S2011 reduced power consumption by 16 %.

* Value measured by the test defined in International Energy Star Program.

Adjustable toner output

Toner density is adjustable in six steps. Printing at lower density saves toner and helps reduce costs.
