Enhanced hIgh-end productIvIty

Information volumes are exploding; you need a solution that can simplify every kind of document processing. Gestetner's ultra-fast MP 6002/MP 7502/MP 9002 make high volume copying, printing, scanning, faxing and finishing easy. Now you can automate document heavy tasks and ensure outstanding security for your expanding workflow.

- Exceptional ease of use
- High-level productivity at 60, 75, 90 ppm
- Eco-friendly features
- Energy and paper saving
- High document security

Gestetner in functions to optimise user productivity

Improve productivity

Accelerate your workflow: get first copies in 3.9 seconds or less; scan single-pass colour at 178 images per minute (ipm) in duplex and 90 ipm in simplex at high quality 200 dpi. Handle more types of paper in-house using the Bypass Tray.

Maximise ease-of-use

The user-friendly operation panel lets you customise your own home screen. After embedding your preferences, you can access your personal screen by pressing the home button. It's also easy for casual users to print from SD/USB drives simply by inserting them into the slot on the panel.

Manage valuable resources

Efficiently manage resources and encourage sustainable printing. The enhanced controller's pop-up Information Screen displays important environmental and administrator messages. Its Eco-Friendly Indicator shows users their print output and settings histories. You can also use the MP 6002/MP 7502/MP 9002's Quota Settings per user/ group to control operational costs.

Achieve sustainable benefits

High-level productivity goes hand-in-hand with some surprising green benefits with the MP 6002 and MP 7502. Their environmentally friendly features such as the quick response 'sleep' mode, are specifically designed to create a greener workflow.

OptImIse performance

Accelerate input, throughput, output

For ultra-reliable, document heavy processing the MP 6002/MP 7502/MP 9002 have it all. They enable high volumes of diverse document types to be quickly scanned, assembled, copied, distributed and printed – day in, day out. And with sophisticated finishing options, every in-house job can have a professional-looking result.

Cut turnaround times

The MP 6002/MP 7502/MP 9002 offer a rapid warm-up and high-speed output at 60, 75 or 90 ppm respectively. So even large print jobs are processed in no time. High volume? No problem. Avoid printing interruptions with high capacity paper trays that can hold up to 8,300 sheets.

Reduce costs

Reduce high-end processing costs. Quickly see the financial benefits of a low Typical Energy Consumption (TEC) value, easy quota setting, standard duplex and paperless faxing. Save capital expenditure and running costs by sharing the fax option of another MFP on your network, using the Remote Fax function.

Boost efflciency

Streamlne your workflow

Make high-volume document capture and management easy. Benefit from fast single and double-sided scanning. Enjoy the convenience of features like scan to email, scan to folder, and scan to FTP/URL. Accelerate document distribution with GlobalScan NX's intelligent scanning. Enhance your workflow with Streamline NX®'s integrated management applications.

Extend functlonallty

Browse certain websites and print compatible web pages, and other online materials with the help of the optional browser unit. Save time with Bates Numbering, another powerful feature that automates the numbering process. Ideal for companies like law firms that rely on accurate sequence numbering.
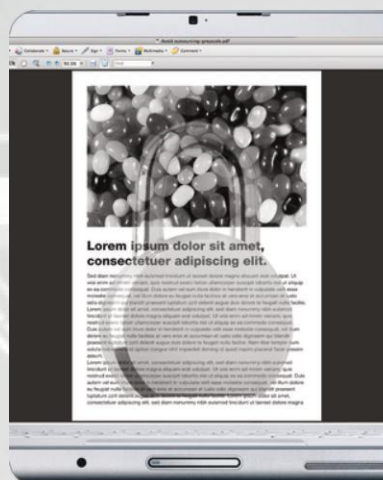

Slmpllfy admlnlstratlon

The   MP 6002/MP 7502/MP 9002 offer advanced management tools: a Power Consumption Measurement facility helps reduce energy use and costs; @Remote saves you time by managing devices remotely; Web Image monitor checks your MFP status online, and Equitrac Office helps you allocate costs to specific users.

Secure, all-Incluslve thInkIng

Strengthen security

Take control. Make unauthorised copies illegible with the Unauthorized Copy Control function. Upgrade your data protection to Enhanced Encryption Level AES256bit and SHA2 encryption. Safeguard your address books, authentication and temporary data with Automatic Data Overwrite. Prevent data leakage from the hard drive with HDD overwrite/ encryption.

Ensure ongoing compliance

These advanced MFP's support PDF/A standards to facilitate long-term document storage. Digital signatures can also be added to PDFs to enable accurate validation. Powerful security features are present to prevent unauthorised access to your documents and incoming faxes. And access to email and fax directories can be controlled via user authentication.

Include professional finishing

You want high volume productivity – so why not include the all-important finishing? Our unique multi-fold option means you can include, for example, A3 charts and tables in A4 documents. You can also achieve professional-looking results with in-line stapling, cover insertion and booklet making. Eliminate outsourcing – let your MFP take care of everything.
